

Researcher Network

As a deverus client, you have access to a network of providers. Vendors integrated through our platform are considered Hubworks researchers. Others are also deverus clients and can perform research directly through our platform connection. Not only are these providers able to offer excellent prices, but you'll enjoy the additional speed of two-way integration between you and the provider – cutting turnaround time down substantially!

Feel free to contact any of these providers directly for more information and pricing. When ready to use a provider, simply submit a support ticket to deverus, and we'll give you further instructions on how to complete the integration.

If you would like to be listed in this researcher guide, or you want to make changes to your listing, submit a support ticket and we'll take care of you!
